User Guide

UA HPC systems are funded through the UA Office of Research Discovery and Innovation (ORDI http://research.arizona.edu/) and CIO/UITs (Chief Information Officer, and University Information Technology Services).

All UA HPC systems are available to all UA researchers (Faculty, staff, undergrad and grad students, postdocs, etc) at no cost. Presently each user is provided with 24,000 cpu-hours per month standard priority.

Access to these systems is through a linux command line interface which may be unfamiliar to the new user. This section has the basic knowledge that will introduce you to the resources and help you get an account, login, run jobs and request help.
